Mission Statement

At Web Krunch, we aim to provide high quality modern websites at affordable prices. Our focus is to supply the customer with what they want, when they want it.

Legal Details

Web Krunch Ltd. is responsible for all debts. If anything happens to the company, our members are not personally affected; members are only liable for unpaid shares. Officers of the company retain their company salaries, they cannot be made bankrupt and they are free to form a new company.

As a private limited company, we enjoy permanent succession because the company is its own legal entity. Shareholders and employees do not affect the company if they leave. In the event of a death or resignation, the company's articles of association allocate the shares to the remaining members. Discontinuation of our company can only occur through liquidation or similar means. Guaranteed succession not only benefits our members, but secures jobs and resources for the community.
